The NORSE RESCUE® Burn Wound Kit, is a small lightweight and compact kit that can be distributed to the e.g the public during a mass casualties with burn victims.

The kit contain some of the most effective products to treat burn wounds in the pre hospital environment. The BurnTec hydrogel dressing included in the kit is a highly effective dressing that guarantees even coverage and distribution of cooling activity over the entire burn surface, even for the most extensive injuries.

The kit can be modified to fit specific needs and demands.
